# We are Global Security.

## 1. Best structure

We are a privately owned business, with a strong and experienced management team. We are agile and committed to our clients at a personal level, with a depth of resources and best practice systems to protect you 24/7.

## 2. Full-service relationship

We deliver a wide range of services to provide you with a single, comprehensive relationship. There is real benefit in having your security system maintenance, alarm monitoring, mobile patrol, alarm response, static security officer and reporting functions coordinated and delivered by a single supplier.

## 3. Business level solutions

You can be assured that solutions designed by Global Security will use current technology with strong local support, be aligned to the scale and risk associated with your business, and that all aspects will be integrated, flexible and fully scalable.

## 4. Close client support

Our General Manager - Operations leads a team that is dedicated to supporting our clients and representing them in-house. This enables us to deliver a close, personalised and value-added relationship.

## 5. Full corporate requirements

Comprehensive insurance, professional OSH systems, best practice operational procedures, full management infrastructure along with substantial investment in modern communications and business resilience technologies means you can have confidence that we'll be there when you need us.

## 6. Technical expertise

Global Security can advise, install and maintain substantially any form of security technology and equipment.

## 7. National capability

Via our national footprint, we ensure consistent, high quality services (especially OSH related) and consolidated reporting nationwide.

## 8. Quality personnel, training and support

We are working hard to be regarded as the employer of choice within our industry, thus attracting the best personnel, giving them role specific training and most importantly, close 24/7 support.

## 9. Global in the community

We are a family based business, with people as our focus. We support many sports people, sports teams, children's initiatives and public events. We care deeply about our community and environment.

## Let's talk.

We'd love the opportunity to discuss your security needs, so please don't hesitate to get in touch to see if we can help you.
